Company Profile

Perfect Group of companies was established in 1986 with a view to cater Service to the vast field of Engineering Industries all over the globe.

Today Perfect Group is an **ISO Certified** has grown as one of the largest business houses Capable of offering all Engineering products & its allied equipments for various industries.

The company, being managed by The Perfect Group for over a span of 2 decades with through professional experience has expanded in multiple fields with latest technology for manufacturing. Trading & Exporting of Product & service like: Shot Blasting, Forging Machines, Casting Machines, Reduction Gear Box, Lawn Mowers, Garden Tools & other Engineering Allied Equipments respectively.

Our Motto is to supply & serve our customer in the best, having the Privilage to deal in all Engineering products & services under one roof with all kinds of facilities, complete after sale service.

It is a matter of pride for the company that our chairman Sh. Ram Murti Sembhi has also been a pioneer in the field of food products. He is the man who for the first time installed an Automatic Biscuit making plant in the country in the year 1965 under the trademark name of M/s. Sembhi Industries.

Furthermore, for all the above, we thank our Customers all over the globe who have made this possible, and we look to their unrestrained support. We have a vision to expand our business and we look forward to the participation of our representatives and customers by adopting innovative approach and by invading the market with their positive thinking and entrepreneurial skills. In this age of globalization we can create a room for ourselves by launching new products and by bringing about qualitative improvement. We shall earnestly hope that we shall get unflinching support from every corner and from every association that we shall develop.

Our endeavour will be build relationship through quality and economy.

Perfect 501

Autoloading Tumbblast Machine

Size: 27"x36" available in rubber & steel conveyors ideal for small & heavy forging & casting's This machine fitted with automatic loading system to provide fast production than manual machines.

This machine fitted with automatic loading system to provide fast production than manual machines.

This machine available with fully automatic system only need to press one switch machine will work automatically for single batch and for continues production as per requirement.

Perfect 502

Autoloading Tumbblast Machine

Size : 27x42", 36x42, 45x60" available in rubber & steel conveyors

Ideal for small & heavy forging & casting's

This machine fitted with automatic loading system to provide fast production than manual machines.

This machine available with fully automatic system to provide fast production than manual machines.

This machine available with fully automatic system only need to press one switch machine will work automatically for single batch and for continuous production as per requirement, available with unloading conveyor system.

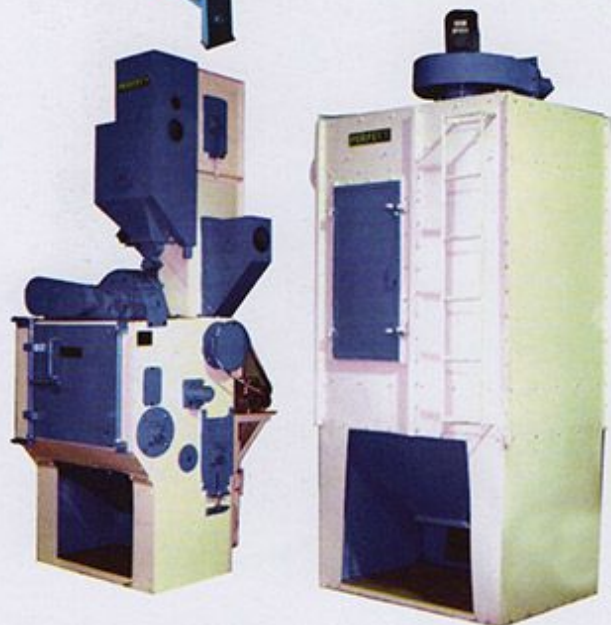

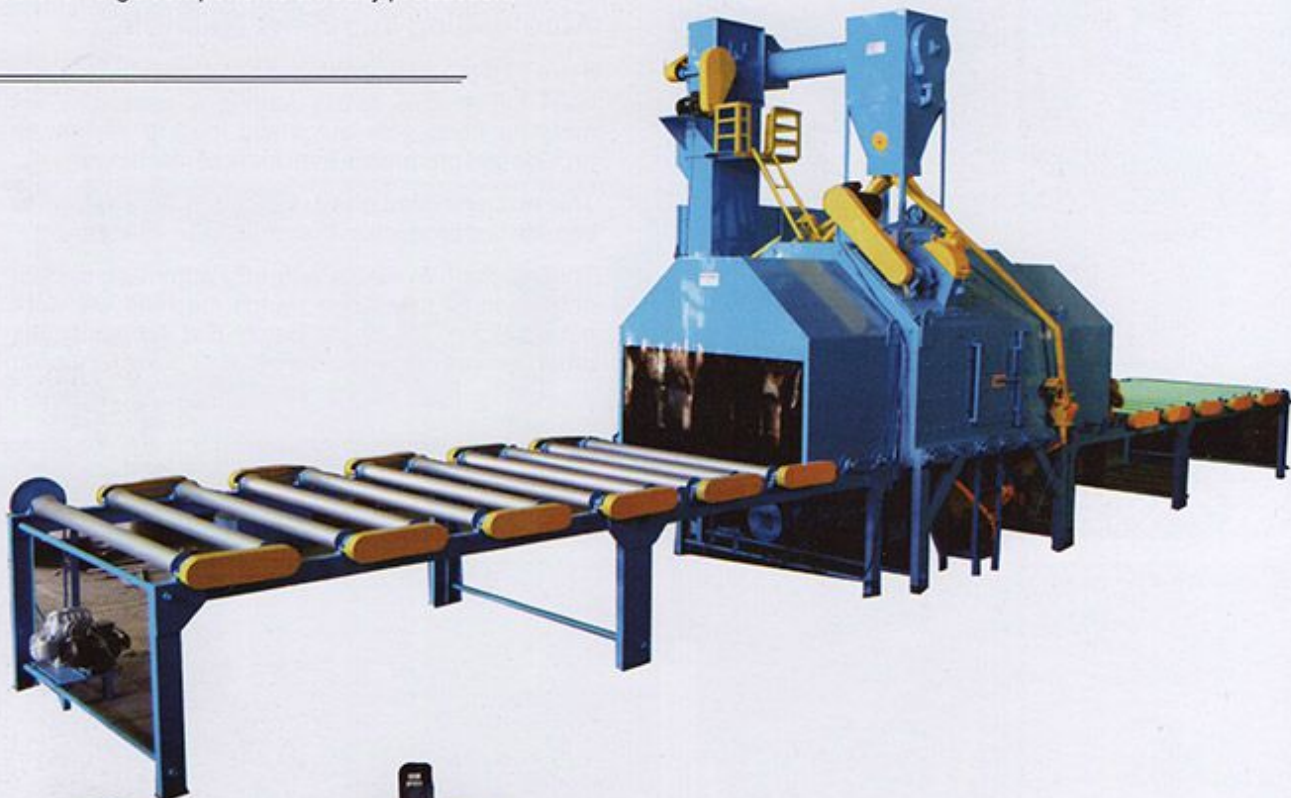

Perfect 503

Continuous Roller Conveyor Type Machine

Size : Different sizes available from 500 mm to 3000 mm width, Available with 2,4,6 blasting wheels.

This machine is inline continuous roller conveyor type machine suitable for scaffolding, pipes, plates etc. Suitable for large components & heavy production.

Perfect 504

Manual Auto Tumble Type

Size : 14"x18", 20"x27", 20"x42", 27"x42", 27"x36"

36"x42" are available in rubber conveyor.

Ideal for small & forging & casting's

This machine is available with manual operating system along with batch timer & electrical operated solinoid valve.

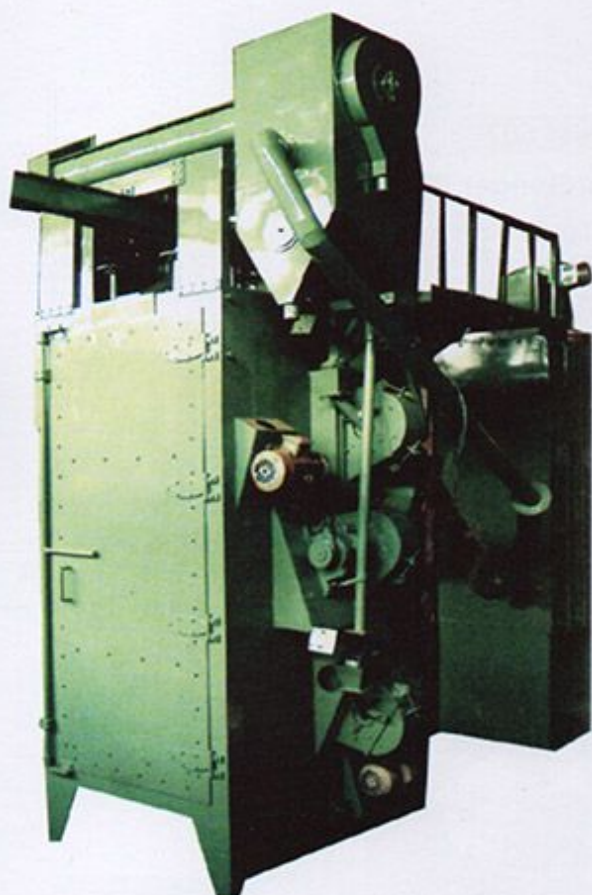

Perfect 505

Manual Hanger Type Machine

Size : Different sizes available as per requirement of the customer. Available with 3 blasting wheels. This machine is manual operating with 'Y' Type hanger operating system.

Suitable for small & heavy casting, forgings & other large components.

Available with 2 Nos. Hangers for fast production.

Perfect 506

Manual Hanger Type Machine

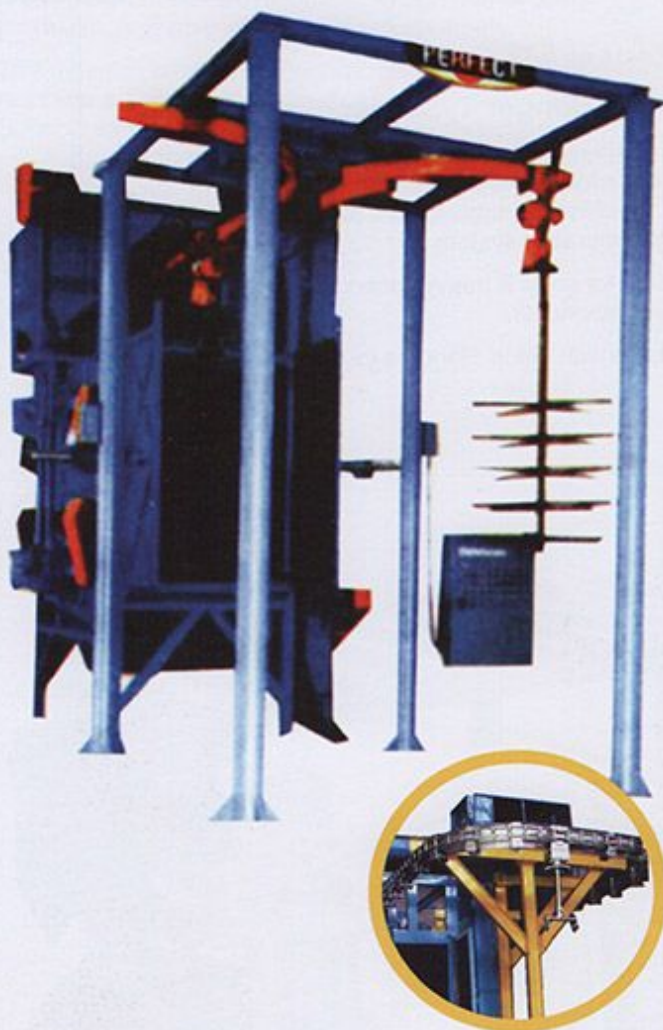

Size : Different sizes available as per requirement of the customer. Available with 1 or 2 blasting wheels difference sizes.

This machine is manual operating with 'T' Type hanger operating system.

Suitable for small & heavy casting, forging & other large components.

Available with 2 Nos. Hangers for fast production.

Perfect 507

Manual Hanger 'Y' Type Machine

Size : Different sizes available as per requirement of the customer. Available with 1 or 2 blasting wheels.

This machine is manual operating with 'Y' Type Hanger operating system.

Suitable for small & heavy casting, forging & other large components.

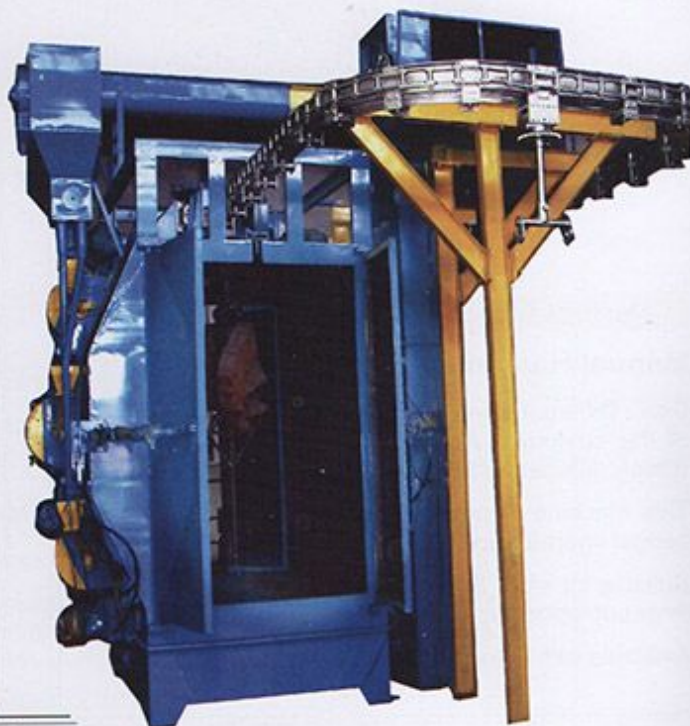

Perfect 508

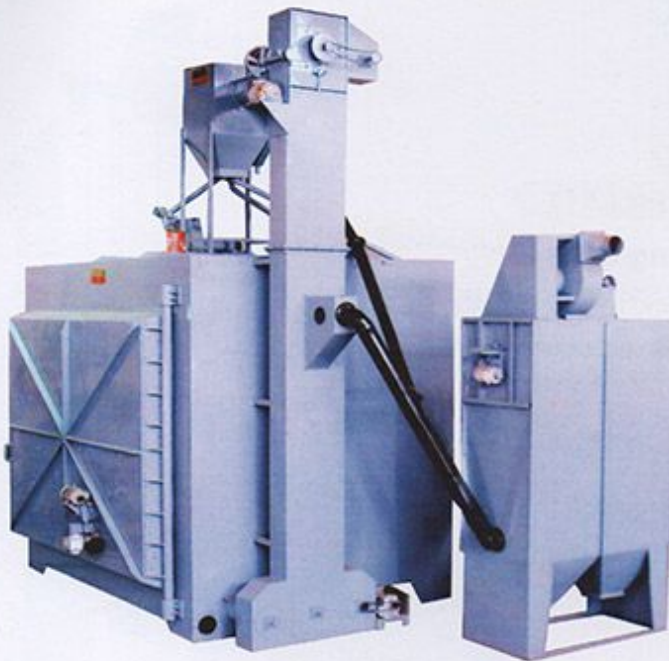

Inline Monorail Hanger Type Machine

Size: Different sizes available as per requirement of the customer. Available with 2 or 3 blasting wheels.

This machine is fully automatic available with Pneumatic doors operating system fitted with different 4 to 5 hangers.

Suitable for small & heavy casting, forging & other large components.

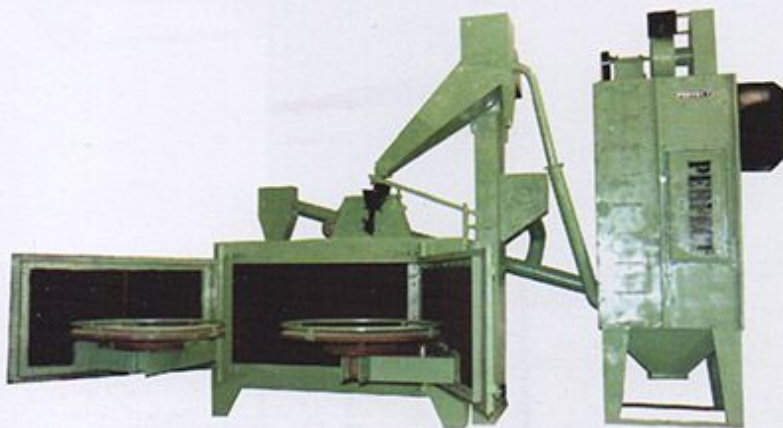

Perfect 509

Swing Table Type Machine

Sizes Available from 24", 30", 36", 48", 60", 72", 96", 120" tables.

This machine is pitless type suitable for small & heavy casting, forging & transformers.

Available in single & double doors.

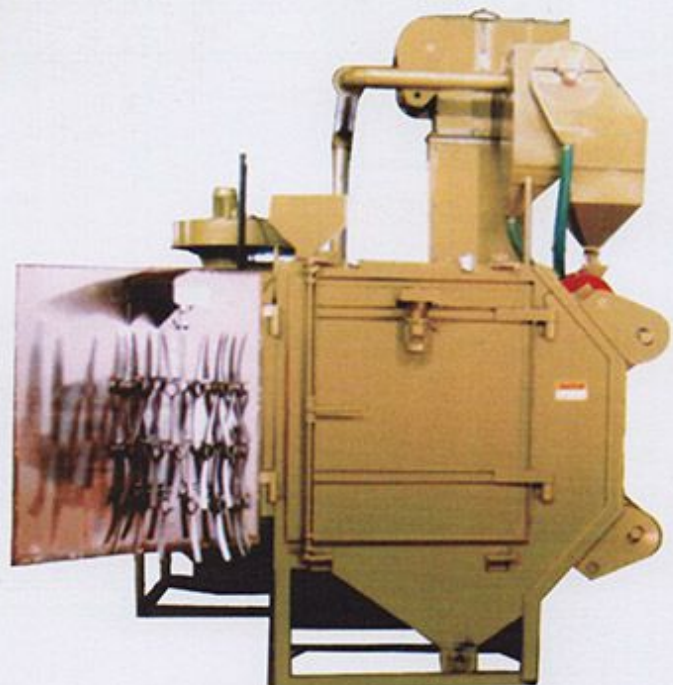

Perfect 510

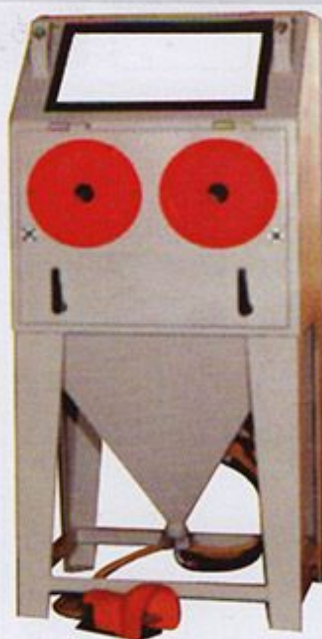

Door Hanger Type Machine

Size : Different sizes available from 600 mm Dia to 1000 mm, Height 700 mm to 1200 mm.

This machine is pitless type suitable for small malleable castings, forgings, aluminium die casting components & fitted with double blasting wheels of different sizes.

This machine can be install in very small area.

Perfect 511

Blasting Cabinet

Available in different capacities.

This machine suitable for hand operated sand/shot blasting machines.

Perfect 512

Pulse Jet Dust Collector

Available in 1000 CFM, 1500 CFM 2000 CFM with Non-Woven Dust Bags or Cartridges.

Perfect 513

Sand Blasting Machine

Available in different capacities from 50, 100, 300, 500, 1000 kgs.

This is air operated sand blasting machine suitable for small and extra large components.

Perfect 514

Assembled Type Dry Dust Tube Collector

Available in 5¼ dia & 62" Long 48 cloth bottles

This machine suitable for suction & storage of dust from the blasting machines, buffing & grinding machines in small quantities.

Perfect 515

Assembled Type Dry Dust Tube Collector

Available in 5¼ dia & 50" Long 48 cloth bottles

This machine suitable for suction & storage of dust from the blasting machines, buffing & grinding machines in small quantities.

Perfect 516

Assembled Type Dust Tube Collector

Available in different capacities. 5¼ dia 50", 55", 62", 70" Long cloth bottles.

This machine suitable for suction & storage of dust from the blasting machines, buffing & grinding machines in huge quantities.

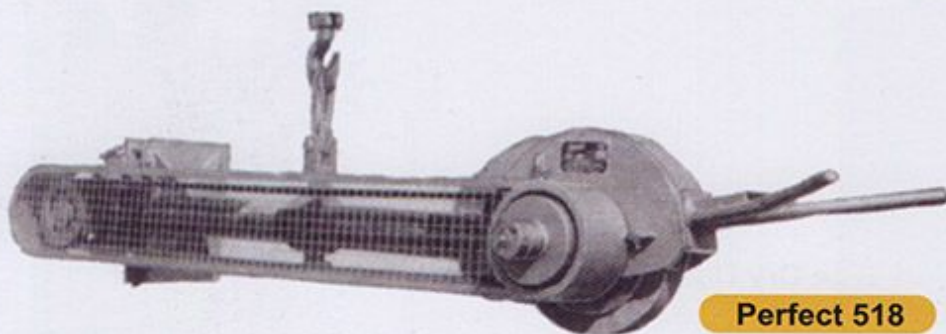

Perfect 517

Rotary Furnance

Available in different capacities as per customer's requirement.

This machine suitable for C.I., Malleable, M.S. castings.

Available with all accessories.

Perfect 518

Swing Grinder

Available in different wheel capacities as per customer's requirement.

This machine suitable for grinding, the heavy castings.

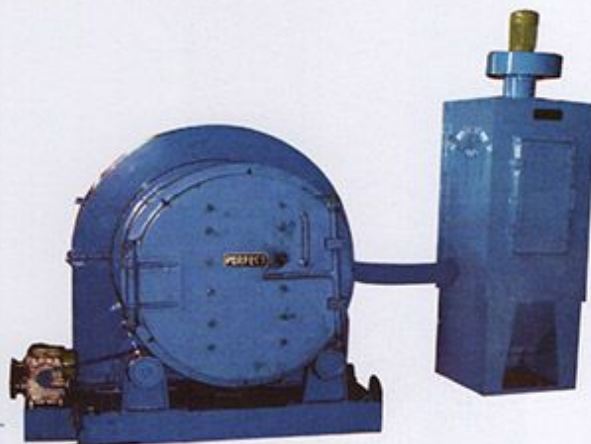

Perfect 519

Rotary Barrel Type Machine

size : Different sizes available from 50 Kgs. to 500 Kgs, capacity.

This machine is pitiless type suitable small malleable castings & forgings, fitted with single blasting wheel of different sizes.

This machine can be install in very small area.

Perfect 520

Magnetic Separator Machine

Available in Double Drum Systems.

This machine contained with Heavy magnetic system & suitable for separation of very fine iron particulars from sand.

Perfect 521

Magnetic Separator Machine

Available in Single Drum System.

This machine contained with Heavy magnetic system & suitable for separation of iron particulars from sand.

Perfect 522

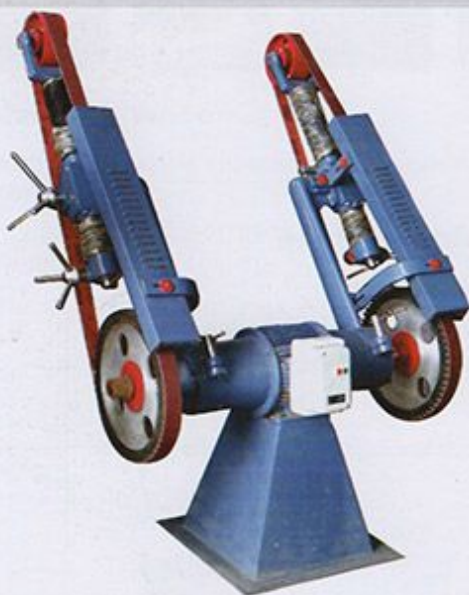

Magnetic Separator Machine

Available in Single & Double Drum Systems with wiremesh separating system.

This machine contained with Heavy magnetic system & suitable for separation of iron particulars from sand.

This machine is also available with automatic feeding conveyor system.

Perfect 523

Belt Grinding Machine

Available in different capacities.

This machine suitable for very fine grinding of spanners, pliers, garden tools & other welded components for extra fine finish.

Available in 2 H.P. 3 H.P. 5. H.P. WITH 10" & 18"

Wheel

Belt Size: 2000x50mm to 3500x50mm

Wheel Grinder with Steel Base & Body suitable for Heavy Castings

Perfect 524

Sand Mixer & Mullors

Available in different capacities from 50 Kgs. to 500 Kgs.

This machine suitable for mixing the sand with liquid materials. This is very useful in foundries.
