

Hexagon Bolts

Bolt King is a **UK Manufacturer** of Hexagon Bolts. We can offer hot forged Hex Bolts from M6 - M52, and CNC bar-turned products from M4 - M200. We manufacture to International Standards, as well as customer's drawings. As well as standard Alloy and Stainless steels, we love working with the exotics, including **Inconel, Super Duplex, Titanium** and many more.

Common Standards Include:

- DIN 931 / DIN 933 / DIN 960
