

Special Studs

Bolt King is a **UK Manufacturer** of Special Studs, Studbolts and Tie Rods. We can produce CNC bar-turned Studs from **M4 - M200**. We manufacture to International Standards, as well as customer's drawings. As well as standard Alloy and Stainless steels, we love working with the exotics, including **Inconel, Super Duplex, A286 660, Waspaloy** and **Monel**.

With three thread-rolling machines on-site, we are also able to rolled threads where requested, up to M100.

Manufactured to your specification:

- Studbolts
- Special Studs
- Tie Rods
- Tie Bars
- Double Ended Studs
- Tap End Studs
- Engineers Studs
- Waisted Studs

Common Standards Thread Forms:

- Metric / Metric Fine
- UNC / UNF / UNS
- BSF / BSW
