

Special Nuts

Bolt King is a **UK Manufacturer** of Special Nuts. We can offer hot forged bespoke nuts from M6 - M52, and CNC bar-turned nuts from M4 - M200. We manufacture to International Standards, as well as customer's drawings. As well as standard Alloy and Stainless steels, we love working with the exotics.

We are one of the few manufacturers in the UK who can hot forge 12 Point Nuts in exotic materials, including **Inconel**, **A286 660** and **Monel**.
