

Hydraulic Fittings

Rubbernek Fittings have the capability to manufacture hydraulic fittings and fluid power fittings to SAE, ISO, BS and DIN or any other internationally recognised standard at your request.

We have the capacity to produce these in low, medium and high volume here in our UK machine shops or through our Far East supply chain. Some examples of the types of standard hydraulic fittings we supply are:-

- SAE J1453 O-Ring face seal (ORFS)
- SAE J512, J513 and J514 JIC fittings
- SAE J1231 Tube fittings
- SAE J1926 Fittings (Stud, adjustable and port)
- ISO 6149 Fittings (Stud, adjustable and port)
- Hydraulic fittings to BS5200

If you do not see what you require above please contact our sales department who will be happy to assist you.
