

Scrap Granulators

For grinding down scrap/rejects of plastic products in houseware, furniture, industrial & rigid packaging (crares/paint, food & oil containers), automotive, agricultural/housing (pipe fittings) segments, both Injection & Blow moulded.

Features

- Solid steel & robust construction.
- Compact and economical.
- Easy to operate.
- Long life scissor-type blades.
- Quick and easy blade setting.
- High production
- Direct grinding of Buckets, Jerry cans, 200 ltr. Drums, Furniture, Dash Boards, Bumpers etc.

Technical Details

MODEL	HMC-0208	HMC-0212	HMC-0216	HMC-0220	HMC-0225	HMC-0230	HMC-0238
Power Required	3 HP. (2.25 kw)	5 HP (3.75 kw)	10 HP (7.50 kw)	15 HP (11.25 kw)	25 HP (18.75 kw)	40 HP (30.00 kw)	60 HP (45 kw)
Grinding Capacity * per hour	0 - 25 kgs.	50 - 60 kgs.	80 - 100 kgs.	125 - 150 Kgs.	250 - 300 kgs.	500-600 kgs.	800-900 kgs.
No. of Blades	4	4	4	4	4	4	4
Throat Size	8" X 8"	12" X 12"	16" X 16"	20" X 20"	25" X 25"	30" X 30"	38" X 38"
Length of Blades	8"	12"	16"	20"	25"	30"	38"
Suitable for Grinding	0.500 Ltrs. Bottles & small moulded articles etc.	Injection & Blow Moulded articles & Containers upto 2 Ltrs. etc.	Injection & Blow Moulded articles & Containers upto 5 Ltrs. etc.	Injection Moulded articles & Blow Moulded Containers upto 20 Ltrs. etc.	Blow Moulded Containers / Jerry cans upto 50 Ltrs. & Small Furnitures	Blow Moulded Drums upto 100 Ltrs. & Medium Furnitures Dash Board etc.	Blow Moulded Drums upto 200 Ltrs. Bumpers & Furnitures etc.
