

Belt Conveyors

- Belt Width : 300 to 2000 mm
- Capacity : Upto 2000 tonnes / hour
- Length & Lift : As per Requirement

Belt conveyor have the advantage of simplicity of construction, high efficiency and minimum downtime. Holtzman can supply horizontal, inclined and declined conveyors or a combination of the above. Holtzman supplies directly to the end user or to the main EPC contractor. We believe the quality of a conveyor is only as good as that of its component parts. We assure excellence in design, manufacturing and installation of our conveyor system. Belt conveyors are used extensively in Ports, Thermal Power Plants, Mines, Steel, Cement, Fertilizer and allied industries.
