

## Rubber Sheet

We manufacture a comprehensive range of rubber sheets for general, industrial and mining applications. It includes vulcanized black and colored sheets for technical uses and industrial applications, with smooth surfaces or with a canvas-type print on one or both sides.

We can produce Rubber Sheeting anywhere from 1mm Thickness. We produce both Sponge and Solid Rubber Sheets. We use only the finest quality of raw materials available. These include polymers like natural rubber (NR), EPDM, Neoprene, Nitrile, Silicon, Viton .
