

PTFE Bellows

Made of superior grade the offered PTFE Bellow is used as essential component of different types of feeding lines and filling equipments. Its application can be noticed in semiconductor industry, chemical and medical equipment production units and so on. This type of bellow acts as a suitable expansion joint. The spiral part of this below enables it to maintain its radial, axial and angular directions. In different piping system, the installation of PTFE Bellow helps to absorb vibration. This PTFE item is specially developed for corrosive and high temperature prone working environment utilization purpose.

Specifications

- We can manufacture & supply PTFE, PTFE & GFT Composite Bellows

Size Range

- 25 mm ID to 500 mm ID to 50 mm OD to 600 mm OD and 100 mm Standard Length.
- We can make up to 500 mm L, On Demand.
- We can supply you 100 Nos. per Day OR 20000 Nos. per Month

Production Capacity - Any Quantity as per Your Schedule.

- **Min. Order Quantity** :100 Piece/Pieces
- **Supply Ability** : 100 Piece/Pieces per Day
- **Type** : Synthetic Resin and Plastics
- **Color** : PTFE, PTFE & GFT
