

## PTFE Washers

We manufacture ptfе washers in a range of dimensions and thicknesses, as standard or bespoke parts. Washers can be produced to the tolerances and shape that you require.

PTFE (Polytetrafluoroethylene) is an inert material and so has excellent chemical resistance. PTFE washers are mainly used in the presence of aggressive chemicals: such as acids, bases, and solvents.

We offer our customers complete material certification and traceability. Our quality system even allows for customers to control how their parts are manufactured.

### Specifications

- We can manufacture & supply PTFE Washers

### Size Range

- 10 mm ID to 500 mm ID to 15 mm OD to 600 mm OD and Thicknesses Ranging from 0.5 mm to 3 mm or any Thk.

**Production Capacity** - 5 Lacs to 1 Million Washers per Month.

- **Min. Order Quantity** :10000 Piece/Pieces
- **Supply Ability** : 10000 Piece/Pieces per Day
- **Type** : PTFE
- **Color** : White
