

## Vacuum Dryer

With an experience of nearly three decades, in providing solutions for the chemical process industry, Dipesh Engineering Works is ideally placed to offer you well engineered and optimum vacuum dryers to suit your application.

Our Rotocone Vacuum Dryers have C-GMP finish construction with an enclosed drive unit preinsulated and clad with SS304 monoblock. They come with complete automation including safety interlock, batch records, vacuum and temperature control.

### **We also make other dryers like:**

- Rotary Vacuum Paddle Dryers
- Spherical Paddle Chopper Dryers
- Conical Screw Dryers.

In addition, we supply accessories like Cyclone Separator, High Vacuum Pump and Condenser, Heating and Cooling , System required for solvent recovery of complete system.

### **Rotocone Vacuum Dryer**

Our Rotocone Vacuum Driers have total C-GMP finish construction with an enclosed drive unit preinsulated and clad with SS304 monoblock. Available in SS, Hastelloy, Teflon-Coated & Helar Coating construction. The drier is available with choppers / lump breakers. Our RCVD is provided with Mechanical Seal for hot water / Steam inlet and outlet.

### **Special Features of Rotocone Vacuum Dryer:**

- Available with complete automation including Safety Interlock. Batch records. Vacuum, Temperature Control.
- Continuous measurement of various process Parameters in the drying room.
- Sizes available from 100 Ltrs to 12000 Ltrs Gross Volumetric capacity.
- Pressure part conforming to ASME & other International Design Codes.
- Ease of internal and external cleaning with full Access For inspection & testing.
