

Industrial Ovens

- HOT Water / Air Generator Using Gas / Oil / Coal & Agro Waste Fuels
- Carburizing Furnaces
- Air Heaters
- Thermic Fluid Steam Generators
- Industrial Ovens
- Paint Booths
- Heat Exchangers
- Mosquito Repellent Coil Dryers
- Thermic fluid heaters on liquid & vapour phase using gas / oil / coal and agro-waste fuels
- Steam boilers, hot water generators using gas / oil / coal & agro-waste fuels
- Thermic fluid steam generators
- Different types of heat exchangers to meet variety of industrial applications including plate type heat exchanger for heating & cooling purpose, economizers, re-cuperators, condensers and re-boilers.
- Industrial furnaces / ovens / dryers
- Paint booths; metal pretreatment equipment, ovens acoustic enclosures & air wash system
- Mosquito repellent coil dryer - continues type / batch type
- Mechanical / pneumatic material handling systems
- Hot air generators using gas / oil / coal & agro-waste fuels
- Centrifugal blower, rotary blower & air handling systems
- Electrical / electronic control stations
- Oil / gas fired burners, gas fired infrared burners

Heat Exchangers For Winter Heating Application
