

# Cartridges

We have many years experience in supplying filter cartridges for hydraulic, air water and dust applications. We can offer a wide variety of cartridges to suit dust applications including shotblast, powder coatings, cement, PFA, carbon black and general dust extraction.

We can offer cartridges up to 350mm diameter and 2000mm long.

## Filter Cartridges can be made from:

- Spun Bonded Polyester
- Stainless Wire Mesh
- Wet Lay Polyester
- Glass Fibre
- Cellulose Paper
- PTFE coated Antistatic Medias
