

Gate Valves

We are manufacturer of industrial valves such as Gate valves are linear motion valves in which a flat closure element slides into the flow stream to provide shut-off.

Industrial Gate Valves are designed to shut off product flow from outlets of storage bins, silos, conveyors, and other discharge points handling dry bulk material.

Specifications

- Material of Construction(body): One piece cast aluminum, cast iron, cast stainless steel
- Slide Material: Mild steel or stainless steel
- Slide Supports: Adjustable eccentric guides (Nylon, PTFE, phosphor bronze)
