

Pump Casing

IS Speci. NO.

IS – 4771/1985 ASTM – 532

Related Name of Products

Ni-hard Casting / Hi- Chrome casting

Pump castings in sophisticated materials such as duplex stainless steels and nickel based alloys or specialized applications include pumps like boiler feed pumps, power station pumps, centrifugal pumps, screw pump, positive displacement pump, vertical pump, submersible pump, high pressure double volute pump, high speed pump, split casing pump, multi stage pump, sewage pump, handling pump pulp handling pump, heavy chemicals (mud type) pump, sea water handling pumps, ash slurry handling pump, raw acid (with slurry) handling pump, and many other positive displacement and metering and dosing pumps.
