

## Polypropylene Tanks

We offer a spectrum of Polypropylene Tanks (PP Tanks) that are manufactured from qualitative raw materials and are used as a material of construction. Our Polypropylene Tanks are resistant to broad range of chemicals and have excellent mechanical properties. We provide Polypropylene Tanks at affordable prices.

### **Description**

Our range of Polypropylene Tanks is available in form of polyglass sheet, which is well known and easy to operate. PP or Polypropylene Tanks have fiberglass impregnated on one side, which can be reinforced with FRP over glass layer.
