

## Fasteners

Fasteners is a hardware device that mechanically joins or affixes two or more objects together. In general, fasteners are used to create non-permanent joints i.e joints that can be removed or dismantled without damaging the joining components. We offer high quality fastner products such as brass nuts, brass bolts, brass anchors, washer, screws and brass inserts. Fasteners come in different sizes and we use high quality brass enhance their precision that suit metallic or wooden surfaces to which they are supposed to mount on. Any kind of Fasteners can be developed and supplied exactly as per customer specifications, design and requirement.
