

## Circlips

Owing to years of professional experience, we are engaged in offering qualitative Circlips. The offered circlips are manufactured using optimum quality raw material and contemporary machines. Our experts pay special attentions to make these circlips of international standards. These circlips are highly demanded in the market as these are used for four-wheelers, auto engines and transmission.

- External Circlips as per DIN 471

- Internal Circlips as per DIN 472/DIN 6799
