

Industrial Stirrer

An Industrial Stirrer is a device or mechanism to put something into motion by shaking or stirring. Industrial Agitators manufactured and supplied by us are used in various industries like food, chemical, pharma, etc. We run these products through various quality tests, which are at par with the international and industrial standards.

- Suitable to mix syrups and liquids.
- The stirring shaft and propeller are made out of S.S. 316 quality and shaft is directly connected to motor.
- The motor can also be fitted on stand.
- Generally, the unit is mounted on a stand with base height adjustable up to 1'-0" up and down.
- All contact parts made out of S.S. 316 quality and stand clad with S.S. 304 sheet.
- Stainless Steel parts are polished as matt finish.

Motor HP	Length of Shaft	Mixing capacity
1 HP	100 CM	500 Liters
2 HP	120 CM	1000 Liters
3 HP	150 CM	1500 Liters
4 HP	180 CM	2000 Liters
