

Jumbo Valves

Our vast industry experience and sound technical expertise has enabled us to offer Jumbo Valve from our broad spectrum of Valves and Regulators that are produced under rigid norms of quality and environmental safety in adherence to global standards. We use the highest-grade metal alloys and other components to make these products. These are used widely for trustworthy performance under demanding conditions and are reckoned for perfect finish and long service life.

Features

- Seamless finish
- Robust design
- Reliable performance

Inlet Connections

- Ø23.2x2.0, W28.8 DIN 477, 3/4" - 14 NGT
- W19.8 DIN 477, M26.0x1.5-6g & Ø19.3x1.814

Outlet Connections

- Ø35.0 mm

Pressure Relief Valve (PRV)

- 26 Bar, Flow Capacity 4m³ air/min
- 28 Bar, Flow Capacity 4m³ air/min

Also available in different types of Inlet and Outlet connections as per buyer's requirements.
