

Pipe Fittings

We have established ourselves as one of the reputed names in the industry well known for manufacture, importing, supplying and exporting a sturdily constructed range of Pipes. These products are available with several qualitative features like high tensile strength and creep rupture properties. We offer these products in different specifications to cater to the variegated needs of the industry. These pipes support annealing and welding without getting hardened, which exemplifies the skill and talent of the employed workforce.

We are well-acknowledged for importing, supplying and exporting a wide range of Pipe Fittings. These products are widely demanded in petrochemical, paper and cement industry. We offer these products in various specifications as per the divergent demands of the industry. The entire range of pipe fittings is offered in cost-effective price range to suit the purchasing powers of the maximum customers.

These products are demands for the following applications:

- Widely recommended for use in chemical industries
- Demanded in fats & fertilizers industry
- Used in sugar mills & distilleries
- Find applications in ship building industry
- Oil & natural gas organization
