

## Screw Chillers

We manufacture and supply wide range of Freon and Ammonia based Screw Chillers, with Water Cooled and Air Cooled with variety (Low / Medium) temperature range up to (-) 40 Deg C.

We provide varied range and makes of Screw Compressors with single and twin screw arrangements and with required fittings.

We are manufacturers and exporters of screw chillers, with environment friendly and HFC free refrigerants like Freon.

Ammonia Based Screw Chiller Manufacturers R 134a, R 407c, R 507A, R 404a, Ammonia. Selection of excellent and first grade raw material and fittings, and experienced, excellent and quality workmanship is the key to guaranteeing screw chiller quality.

### Characteristics

- Full product range suitable for low temperature and Medium temperature applications
- High performance compressors manufactured by specialized manufacturer like (JE HALL, BITZER, FUSHENG, etc.), is adopted to ensure that the chiller is economical and durable.
- Advanced control algorithm is adopted to control chiller in advance and hence avoid frequent stoppage.
- High efficiency, energy saving & low operating Cost
- Wide operating range
- Low noise & low vibration
- Automatic PLC control
- Turnkey projects
- Robust and simplified structure, low failure rate and high reliability.
- Top level efficiency, energy efficient performance and long lasting reliability.
- Maximum accessibility and total connectivity
- VFD Operated Chillers are Offered
