

Pillow

Fiber

Comfi Fibre Pillow

Filled with hollow fibre to give you exact comfort. Light weighted & economical in price too. Just the right pillow to begin your association with comfort.

Fibre Pillow

Springwel Fibre Pillows are filled with highly flexible hollow fibre to give you unmatched comfort. A very fine channel of air running through the length of the hollow fibre, gives approximately 15% more volume than solid fibre. As air is added insulation, Springwel pillows are versatile giving airy feel during summer and maximum warmth in winter.

Latex

Standard Pillow

Its a Latex Pillow from the house of Springwel Mattresses Pvt. Ltd. Original hypo-allergic anti-microbial pillow for sleeping comfort and relaxation.

Heart Pillow

This heart pillow is specially designed in the shape to fit between neck and shoulder. Its middle section is lower and has shorter pinholes to provide more firmness for the head while sides are soft and high to maintain proper alignment of neck, shoulders and spine when sleeping on side. This heart pillow gives correct orthopedic support and recommended to avoid shoulder pain while sleeping.

Contour King

The doctor pillow supports your neck in such a way to keep it aligned with rest of your body and upper torso can relax. This doctor pillow is specially designed to take pressure off your body and to provide proper shoulder alignment while sleeping. It is pillow is recommended for the person who has been advised to sleep without pillow due to neck pain.

Micro Fibre

Micro Fibre Pillow

Springwel Microfibre pillows are lightweight, soft, comfortable; and feels like down pillow .Made of revolution breathable microfiber construction that forms an effective barrier against dust mites and other harmful allergen particles .Its fabric is so tightly woven that it does not require a membrane, and allows both air and moisture to pass through. These Pillows are designed for those who value a healthier way of living.
