

In Most Industrial Facilities , The Majority Of Electrical Energy Is Provided By Electric Motors.

Our Organization Offers A Wide Range Of Standard Motor Which Are Widely Used In Various Industries .

We Offer The Best Quality Motors At Very Competitive Industrial Rates.

Standard Motor Product Specifications :

- The Speed Of The Motor Can Be Easily Changed ,With The Help Of A Special Switch Or Appropriate Connection In The Panel.
- Easy To Install
- Low Maintainance Cost.
- To Reduce The Production Costs, Our Motor Enables An Effecient Use Of Energy.
- Totally Adaptable And Compact Design.

Standard Motor Technical Specifications :

Power Range : Upto 200kW

Voltage : 3-12 V

Ratio : Upto 3000:1

Torque : Upto 35,000 Nm

Our Motors Comply With The Effeciency Norms Of Each Of The Geographies.

Industries :

Engineering , Textile And Various Other Industries.
