Socketweld Pipe Fittings

DYNATICS PIPING SOLUTION PVT LTD. one of the prominent manufacturer, exporter and supplier of forged socket weld fittings manufactured in accordance to ASME B16.11. Forged socket weld fittings are available ex-stock in all major stainless steel grades, carbon steel and alloy steel grades. We offer various types of socket weld fittings including socket weld elbow, socket weld tees, socket weld cross, and more. Socket weld fittings are widely used in piping systems across major industries such as petrochemicals, power generation, ship building, dairy industry, breweries, waste water treatment, chemical, pharmaceuticals and others.

Socket weld fittings are available in pressure ratings of class 3000, 6000 and 9000. We are constantly adding to our diverse product range in order to better serve our valued customers.

Galvanized Pipe Fittings

We have emerged as one stop destination for the complete range of GI pipe fittings. Our range of GI pipe fittings includes GI Elbow, GI tee, GI socket and GI union, fabricated from the best quality galvanized iron. This GI pipe fittings are superior in strength, toughness and endurance. They are used for joining pipes or tubes in different angles as per requirement of the project. In addition to this, we are one of the leading manufacturer of GI pipe fittings in India.
