HEOS Drive

Features

Whole home multi-zone audio in a single chassis.

Designed by custom integration specialists for custom integration professionals, HEOS Drive HS2 is a unique 4 zone whole home audio distribution system with 8 channels of Class D amplification, all in a 2RU single chassis that features both Dolby Digital and Dolby Digital+ decoding with stereo downmixing.

Rated at 60 watts per channel into each of the 8 channels (20Hz~20kHz, .05% THD, 8 ohms, All Channels Driven), 1 or 2 stereo amp pairs can be bridged for single channel high power output (130 watts), and the HEOS Drive HS2 features low impedance drive capability (4 ohms).

Each zone features a stereo pair of pre-amp outputs, and each zone can be configured for stereo or mixed mono output. The matrix switching system features 2 optical digital inputs, 2 coaxial digital inputs and 4 analog stereo inputs, any of which can be assigned to any zone, and every zone features a dedicated USB port for connection to an external USB drive.

Equipped to handle virtually any combination of speaker configurations, HEOS Drive HS2 features built-in DSP high pass/low pass filters – set any output to full range, subwoofer or satellite speaker modes, with adjustable crossover points.

The speaker outputs feature 4-way binding posts that are compatible with banana plug terminations, and there are 4 12V trigger outputs. The chassis features quiet fan cooling for long term stability and operational reliability.

Dual RJ-45 Ethernet LAN ports are provided, for connection to the network and sharing the internet connection with other devices, and HEOS Drive HS2 is 3rd party control compatible.

HEOS Drive HS2 comes with removable feet and attachable rack ears, allowing rack or shelf placement.

Once installed and connected, HEOS Drive HS2 setup and configuration is fast and easy via our HEOS app (iOS and Android).

The HEOS Drive is part of the HEOS multi-room sound system that enables you to enjoy your favorite music anywhere and everywhere around your home. By utilising an existing home network and the HEOS app for iOS, Android and Kindle Fire, you can explore, browse, and play music from your own music library. You can also stream online music services and thousands of internet radio stations.

This powerful 4 zone, 8 channel amplifier is a custom installers dream. With similar functionality to both the HEOS Amp and HEOS Link, you get 4 HEOS zones in a single 2U (3.5" tall) chassis. Powerfull class-D amplification, included rack mount ears, active cooling, reliable wired Ethernet input and pass-through and it's compact size, make the HEOS Drive the perfect choice for a whole-home distributed audio system.

Perfect Sound Made Simple.

Designed by custom integration specialists for custom integration professionals, HEOS Drive HS2 is a unique 4 zone whole home audio distribution system with 8 channels of Class D amplification, all in a single 2U tall chassis that features both Dolby Digital and Dolby Digital+ decoding with stereo downmixing.

Rated at 60 watts per channel into each of the 8 channels (20Hz~20kHz, 0.05% THD, 8 ohms, All Channels Driven), 1 or 2 stereo amp pairs can be bridged for single channel high power output (130 watts), and the HEOS Drive HS2 features low impedance drive capability (4 ohms).

- Four independent, amplified HEOS zones
- 8 Channel Class D digital amplification; 60 Watts/ch (20Hz~20kHz, 0.05% THD, 8 ohms, All Channels Driven); 4 ohms compatible; bridge mode (130 Watts/ch)
- Pre-amp outputs for each zone
- Amazon Alexa voice integration
- Third Party Control Compatible
- Four x 12V Trigger Outputs
- Two Fiber Optic, two Digital Coax and four Analog Inputs (Matrix switching)
- Four USB Inputs
- Selectable Stereo/Mixed Mono Output
- Selectable High Pass/Low Pass Filters
- Two Ethernet Inputs • Rack Ears Included

HEOS AMP

Features

Wireless amplifier: turn any speakers into a wireless zone.

The HEOS Amp is designed to add HEOS multi-room audio functionality to a pair of stereo speakers, and features the same wireless ease of use as our self-powered HEOS speaker models.

Featuring advanced Class D digital amplification, the HEOS Amp delivers 100 watts maximum power per channel, with lowest distortion and high current capability that provides reliable and stable operation with lower impedance speakers, including 4 ohm models.

With the HEOS Amp, you can enjoy the benefits of wireless hifi, while listening to your favorite loudspeakers, and the high power rating means that you can enjoy room-filling sound quality even at concert hall levels.

In addition to the stereo speaker outputs, the HEOS Amp features additional connectivity, including a sub output for connection to a powered subwoofer. There's also an analog stereo line input (via RCA jacks), and an additional auxiliary input via 3.5mm jack for direct connection to a portable player's headphone output.

An optical digital input lets you connect a digital music source such as a CD player, and a USB port lets you connect a portable thumb drive to listen to your favorite tracks. You can also use the USB port to charge your portable device. In addition to the built-in dual band "N" wireless system, the HEOS Amp is also equipped with an RJ-45 Ethernet port for direct connection to a wired LAN setup.

As with our HEOS wireless speaker models, you'll be able to stream your favorite music tracks and control the HEOS Amp with our HEOS App, which is available in both iOS and Android versions. With the HEOS App, you can choose to listen to music tracks on your smartphone, tablet or portable audio player, and you also can listen to your choice of internet radio stations, and you can also listen to your favorite music streaming service.

HEOS lets you choose different songs for each room, or you can listen to the same song in all rooms. Our exclusive digital technology provides precise audio synchronization (within microseconds) to ensure top audio fidelity and stereo imaging quality.

The stylish HEOS Amp enclosure features elegant silver accents, and for convenience, there are volume and mute controls discreetly placed on the side panel.

The HEOS Amp is designed to add HEOS multi-room audio functionality to any pair of stereo speakers and features the same wire-less ease of use as our self-powered HEOS speaker models.

Featuring advanced Class D digital amplification in a sleek compact chassis, the HEOS Amp delivers 100 watts of power per channel, with low distortion and high current capability.

- NEW Plays high resolution music
- NEW Bluetooth® Integrated
- 100 watt per channel Class D amplifier.
- Perfect for any speakers; including outdoor, in-ceiling, floor standing or bookshelf models.
- FREE HEOS app.
- Stream from your favourite music service such as Spotify, Deezer, TuneIn, or Napster.
- Stream music stored locally on your iOS, Android, or Kindle Fire smartphone or tablet.
- A USB jack, optical digital input and auxiliary 3.5 mm analogue input jack allow playback from these sources to one or more HEOS players with perfect synchronisation
- Stream music from devices on your home network such as NAS drives and PC and Mac computers.
- Supports latest dual band wireless networks (including 802.11 a/b/g/n/ac standards).
- Ethernet jack for wired network connectivity.
