BeoPlay A2

Overview

The sweet spot is everywhere.

Excellent engineering and the unique True360 sound solution mean the sweet spot is everywhere. No need to worry about placing the A2 correctly, or sitting in just the right place. Just listen and enjoy.

Heavy duty sound that doesn't weigh you down

At just 1.1 kg (less than 2.5 pounds) the A2 is the very essence of portability. And, the sturdy materials and interchangeable straps mean you can bring it anywhere you like, anyway you want.

Built to be social.

Setup is easy using the latest 4.0 Bluetooth technology that boasts best-in-class streaming performance.

BeoPlay A2 remembers up to 8 users, so you can team up with your friends and take turns being the DJ. Now all you have to do is agree on the music. If you can't, hook up 2 devices and take turns.

Made to move you

Nothing carries emotion quite like music. Basically, it is the soundtrack to our lives.

Bring the A2 anywhere to boost your party-mood, bring you from minor to major or just dwell on melancholy for a little while.

Help yourself to whatever playlist suits your mood. Happy, moody, flirty or even angry. Happy listening.

BeoLit 15

Overview

Play it your way

Beolit 15 brings you the beauty of its predecessor, in a range of exciting new colours. But the real revolution is inside. Packed with a series of recent innovations - like True360 sound and great new options for connectivity.

Powerful sound all around

Excellent engineering and the unique True360 sound solution ensure your music sounds great, wherever you place Beolit 15. And, with 240 watts of peak power, there is enough sound to fill even larger rooms - and plenty of power to get the party going.

Quick and simple Bluetooth 4.0 connectivity makes it easy for you to play from any of your favourite devices.
