

Actuators

We have Rotork actuators for all applications from the world's largest actuator manufacturer. All actuators can be controlled by various bus solutions if required.

Rotork actuators are ideal for applications that require reliability, safety, ease of use and worry-free operation. Safety actuators such as Rotork CVA and Skilmatic software enable reliable and high-quality actuation of difficult and personal risk areas.

We also offer Bray, WM-Regler, Centork, K-Tork, Schischek and Remote Control actuators and accessories.
