

FEP O-ringer

FEP O-rings, this is either viton or silicone O-rings that are coated with FEP. This gives a seamless O-ring with very high chemical resistance and good elastic properties. We also supply Norsok approved O-rings in accordance with Norsok M-710.

We also supply special quality o-rings such as Kalrez and Aflas (FFKM), our strength for these products is short delivery time at market price.
