

Machine Knives

Shear blades

We manufacture and trade knives for various industries including the metal, packaging and food industries. The blades are supplied as standard blades or custom blades and in a material selection that matches the task for that knife.

slit Knives

We now have a very extensive drawing archive of knives for various machine makes. Should we not have the correct information about the knife, we have the opportunity to draw on partners so that we ensure the correct targets on the knives.

If you need an offer on a set of new knives, or if the old ones need to be sanded, please feel free to [contact us](#) .

Round knives

We supply circular knives for the textile industry.

Granular knives

We supply granular knives for the plastic industry.
