

Process Equipment

We manufacture a variety of process equipment as mentioned below

- Scrubbers
- Cooling Towers
- Wet Gas Electrostatic Precipitators
- Polymer Concrete Cells
- Mist Eliminators
- Settling Tanks
- Pickling Tanks
- And Many More...

NOTABLE MENTIONS

- Manufactured largest FRP Reactors in India – Dimensions: 8m diameter x 6.8m shell height. (Capacity – 350 m3)
- Manufactured most numbers of FRP Wet gas ESPs in the world – Over 200 ESPs.
- Manufactured the largest FRP ESP – Dimensions: 7.8m diameter x 10m height.
- Manufactured most number of Polymer Concrete Cells in India – Over 2500 cells.
- Manufactured the largest composite equipment to be exported from India (in terms of volume) – A cooling tower of dimensions 6.2m diameter x 23.5m height. (Capacity 710 m3)
