

Drum Cradle

Whether you're lifting empty or full drums, this drum cradle makes the process easy for you. Picking up the drum similar to a hand truck, the top of the drum is clipped into place before tipping it back and walking it away almost wheelbarrow-style.

MECHANICAL FEATURES

- **Finish:** Zinc-plated
- Being constructed of solid steel with a zinc-plated finish makes this ideal for use in wet, corrosive areas or hygiene sensitive areas
- Suitable for a standard 200L drum
- Similar in concept to handling a wheelbarrow, the drum cradle makes moving drums around by hand safe and easy
- Rubber handgrips make the drum cradle easy to pick up and hold on to, especially when carrying heavy loads
- 100mm nylon, non-marking, durable, wheels
