

Milking Pumps

Designed and manufactured by Skellerup to ensure the safe and sanitary transfer of milk from the milking machine system to the bulk storage vessel. We have a range of milking pumps for a variety of applications.

Skellerup Centrifugal Milk Pumps are manufactured from Pressed Stainless Steel and are available as complete pump units or as pump headsets only. Various size options are available in the Skellerup range; .55kW, .75kW, 1.1kW and 1.5kW.
