

## HEAT EXCHANGERS

A Heat Exchanger is used to transfer the Heat from one medium to another. They are widely used in space heating, refrigeration, air conditioning, power plants, chemical plants and natural gas processing.

Elegant Creations is a trusted Manufacturer of Heat Exchanger and offers heat exchanger Equipments like Fin Tube Type Heat Exchanger, Shell and Tube Type Heat Exchanger for range of industry sectors.

Our Shell and Fin Tube Type Heat Exchanger has a long operational life and it has a Trouble-free functioning with rigid structure. It is corrosion resistance and its performance is very efficient.

### FIN TUBE TYPE

**Finned Tube type, for Air Heating or Oil cooling, by blowing of Air on Finned Tube. Capacity up to 2,00,000 J. Surface area up to 250 Sq. Meter**

### FIN TUBE TYPE

**Finned Tube type, for Air Heating or Oil cooling, by blowing of Air on Finned Tube. Capacity up to 2,00,000 J. Surface area up to 250 Sq. Meter**

### **SHELL & TUBE TYPE**

**Shell & Tube type / Tube bundle type , liquid to liquid Heat transfer, Capacity up to ø 1200 mm x Length 6.5 MTR.Surface Area 250 Sq. Meter**
