

# Ambica Engineering Company

## The Leading Electric wire rope hoist manufacturer in Ahmedabad

We are an established electric wire rope hoist manufacturer based in Ahmedabad, Gujarat. Owing to our in-house manufacturing facility, we are capable of designing and supplying heavy duty hoists with a capacity to handle 15-ton load.

Our electric wire rope hoists are known for great performance, excellent safety features, customized dimensions and convenient load handling. This has made us one of the topmost electric wire rope hoist manufacturers and suppliers in India.

Our electric wire rope hoists are popular among large scale as well as SME industries owing to multiple advantages, including:

- Revolutionary compact design facilitating efficient load handling
- Highly-customized hoist models according to requirement
- World-class hoists with true lift capability that minimizes hook movement horizontally - hook moves horizontally only 10mm during a one-meter lift
- Modern hook forging design for safer load rigging
- DC Disk motor brake
- IP55 rated for outdoor use
- Premium & high-quality components for superior performance and safety
- Premium rope for wear resistance
- Heavy-duty fan cooled motors
