

Paper Bag

At Most Secure, we pride ourselves on delivering the kraft paper products you want. But our people set us apart. They're not satisfied until you are. They align their goals with yours. Your hurdles become theirs and they work hard to deliver solutions. For them, customer service isn't a goal; it's the way they conduct business each and every day.

As a leading producer of kraft paper in Bangalore, our kraft paper mill network offers a broad range of both bleached and kraft grades. We deliver a variety of capabilities from virgin fiber to recycled fiber, as well as blended fiber content.

Most Secure kraft paper machines are among the fastest and widest in the industry, yet we can also produce smaller specialty runs to meet your customized needs. With mills in the Bangalore, we are uniquely positioned to offer you geographical and logistical benefits.

Our Most Secure brand of kraft papers is used to create a vast variety of products including but not limited to:

- Quick-serve carryout bags
- Grocery and shopping bags
- Butcher wrap and freezer paper base stock
- Multiwall shipping sacks
- Asphalt- and resin-saturating base stocks
- Various industrial converting and packaging applications
- Protective packaging applications
- Other specialty kraft paper products including wet strength and red rosin
