

Jewellery & Lab Scales

High Accuracy Jewellery scales are available from us, which has good wide market in Banking sectors for jewel loans, Jewellery shops for weighing gold & Silver, And also in labs we provide acrylic wind shield cover if needed. All models are approved by Govt of India. And each scales are stamped by legal metrology department & the original certificate is handed over to the party.

Lab Scales

Portable compact balances offer the features and functions needed for many different applications. They are well-suited for performing basic mass measurement in general science lessons, chemistry labs and physics classrooms – models with a special stackable design are an excellent solution for labs or classrooms with limited space.
