

Strand Pelletizer

- C Series - Cantilevered with electronic chip length control
- CG Series - Cantilevered with change gears for chip length size variation

Model	GCD-50	GCD-75
Inlet Width, mm	50	75
Max Strands	10	15
Capacity, Kg/h	250	375
Capacity based on polymer sp gravity 1.2 gm/cc, Chip size 3x3 at 80% feedrate		

- Electronic Interlock : Cutter chamber opens only at zero speed of cutter
- Your Advantage : Machine and spares cost low, Ease of maintenance and cleaning during batch changes, excellent chip quality, various cutter materials available.
