## **Pulverizer**

- ➤ GPM-360 Segmented Pulverizer
- > For converting polymer chips to powder

Production	100-360 Kg/Hr
Input Material	Polymer Chips
Polymers	PP, PET, HDPE, LLDPE, Masterbatch, Fillers

## **Your Advantage:**

- > Precision Segmented discs made from low wear hardened steel in utmost precision
- > Fully automatic Control of machine using easy to use touch screencolored graphics
- > Jumbo bags can be placed directly under the rotary valve outlet
- Suction fan at easily accessible location
- > Ease of gap setting
- > Trial runs can be arranged for you with your specific material
- Smaller footprint compared to other makes
- > Low maintenance and wear
- > Rapid recovery of cost
- ➤ "Make in India" initiative. All parts and blades fully developed and manufactured in India under one roof
