

Heat Exchangers

We are the leading manufacturer and supplier of the best quality range of Heat Exchangers. Our provided heat exchangers are well-manufactured under the guidance of our adept professionals using the finest grade raw material and modern technology. Offered heat exchangers are widely demanded by our clients for their sturdy construction and long service life. Moreover, these heat exchangers can be availed by our clients at affordable prices. Units are manufactured from a full range of low-temperature regular carbon steels, stainless steels, Inconel, Incoloy, nickels, Hastelloy and clad materials. Complete design, engineering and manufacturing under one roof! Our modern state of the art, machining centers, automated tube to tube sheet welding, weld preparation grinding equipment and automated welding systems. Units can be individually designed to customer's material specifications and process parameters. Complete the heat exchanger and condenser specification sheet and submit by e-mail or fax to BRISSUN for quotation.
