

Petrol Flowmeter

Fluidyne made petrol flowmeters are exactly what you need when it comes to accurate consumption or dispensing of petrol. Built on the time tested positive displacement principle, the Fluidyne petrol flowmeter combines accurate and repeatable flow sensing along with safety by usage of certified electronics flameproof enclosure.

Specifications

Pipe Size

6mm - 80 mm

Flow Rate Compatibility

3 LPH - 30,000 LPH

UI

8x2 LCD with Backlight

Flowmeter Construction

Aluminum LM04

Accuracy

± 0.25% of reading
