

Assemblies

Anandha Fabrications (CBE) Pvt. Ltd. is an engineering and manufacturing firm that provides Assembled components for various industries. Both fabricated and machined components are assembled with bearings, Gear Couplings, Gear boxes, Drive Shafts etc., Some of our assemblies include: 1. Complete fabrication, machining and assembly of 2.1m diameter butterfly valve to France. Material grade: S355J2Go.

Forged blocks upto 500mm thickness. SS410 Trunnions. 2. Complete fabrication, machining and assembly of 2.4m Knife gate valves with HARDOX liners, SS304 Gate and with Actuator for Coal Pulverizing plant. 3. Complete Fabrication, machining and assembly of Furnace Ladle Car for carrying 250MT molten metal in a steel plant. Includes 8 Forged and hardened (280BHN thorough Hardness and 480BHN surface hardness) wheels, 5m Drive shaft with gear couplings. Nett weight: 25MT. 4. Complete Fabrication, machining and Assembly of Threading Support Rollers for Steel Finishing Mill. Has 12 Polished Steel rollers with bearing on Plummer blocks.
