

## Fully Automatic

We, Shree Ganpati Engineers are well known in sweet making machine's market for our products, which are widely accepted in the market for its outstanding features such as compact size, durability, low operational costs, low maintenance, built in electrical components, hygienic and sterilized food contacting parts, and affordable price.

We specialize in manufacturing Rasgulla Making Machine that performs the process through mechanized and programmed devices in order to ensure optimum result in terms of hygiene, shape and size of rasgulla. All our products meet the Indian and International safety regulation standards as well as all other current norms.

### Technical Specifications:

Sheet Metal Work	Stainless Steel
Structure	Stainless Steel
Height x width x length	70 x 30 x 65.5 (inches)
Weight	400Kg
Electric Motors	3
Power Consumption	1.5 KW

Electricity Consumed	2 Unit Per Hour
Hooper Capacity	5 Kg to 25 kg
Balls Weight	2 Gm To 25 gm

### Specifications:

✓ High quality stainless steel used
✓ No change parts required for different sizes.
✓ Easy to operate, even unskilled worker can operate.
✓ More production in less efforts.
✓ Less power consumption.
✓ All Pieces are of perfect shape & weight.
✓ No Air Compressor Required.
✓ Low Maintenance Machine.
✓ Portable on wheels.
