

## Mixing Machine

In the wide range of our sweet making machines mixing machine is one of the finest design by Shree Ganpati Engineers. These machines are made in complete adherence with international quality standards using top quality materials. Our Malli Machine is largely used in namkeen shops and bakeries for homogeneous mixing of different ingredients. Be it in domestic market or international, our offered machines are cherished and acknowledged over the global platform.

### Technical Specifications:

Sheet Metal Work	Stainless Steel
Structure	Stainless Steel
Height x width x length	43 x 23 x 36 (inches)
Weight	150Kg
Electric Motors	1
Power Consumption	1.5 KW
Electricity Consumed	1 Unit Per Hour

Capacity	20 Kg to 25 kg
Drum D x w x l	20 x 16 x 20 (inches)

### Specifications:

✓ Mixing as well as stirring.
✓ Low Maintenance Machine.
✓ Noiseless & hassle free operation.
✓ Precisely design.
✓ Low power consumption.
✓ High performance.
✓ Easy to clean and wash.
✓ This equipment is very useful for mixing maida of Gulab jamun, Rasgulla, Mathi & Shakarpare etc.
✓ Small & compact in size.
