

Paper-Plate-Lamination-Machine

Keeping in mind the customers need, we manufacture, export and supply a comprehensive range of Paper Plate Lamination Machine. For the fabrication of this machine, our adroit professionals use premium grade components with the help of pioneering technology in sync with the set international standards. Applicable for laminating paper plates, the provided machine ensures optimum performance and smooth operation. This Paper Plate Lamination Machine is available with us in varied technical specifications as per the preferences of our patrons at reasonable rates.

Specifications:

Working Speed	140 M/min to 250 m/min
Max. Web width	600 / 800 / 1000 / 1200 /1400/1600 mm
Unwind Roll Dai.	600 / 800/1000 approx mm
Rewind Roll Dai.	600 / 800 /1000 approx mm
Drying Section	Multi-zone arch type
Heat Source	Electrical / Hot Air
Coating Section	Gravure / Reverse Roll
Laminating Section	Chilling / Heating Roller with Pneumatic Nip Roll

Drive	Variable Speed: DC/AC
Unwind / Rewind	Simplex / Duplex

Features:

- Reduce manpower and the amount of electricity consumed as well
- Longer operational life that ensures easy maintenance
- Allow uneven speed adjustment
- Maintains the defined temperature by automatic level control
- Smooth functioning for accomplishing the work faster
