

SM'D Carabiner

The compact Sm'D asymmetrical aluminum carabiner is recommended for workers at height looking to reduce weight to a minimum. Its D shape makes it especially suitable for attaching devices. Available with or without two locking systems: automatic TRIACT-LOCK system or manual SCREW-LOCK system.

Selling points

- Compact aluminum carabiner, for workers at height looking to reduce weight to a minimum
- D shape is especially suitable for attaching devices
- Facilitates manipulations:
 - fluid interior design limits the risk of having a catch point and facilitates rotation of the carabiner
 - Keylock system to avoid any involuntary snagging of the carabiner
- H profile:
 - ensures an optimal strength/weight ratio
 - protects markings from abrasion
- Hole for connecting TIBLOC or MICRO TRAXION type devices, limiting the risk of losing them
- Available without locking system, for easy clipping during progression using climbing techniques
- Two locking systems available:
 - TRIACT-LOCK: automatic locking with triple-action gate opening
 - SCREW-LOCK: the manual screw-lock with red band provides a visual warning when the carabiner is unlocked
- Also available in black
