

## Hydraulic Cylinders.

- :: Sudarshan fluidtech offers various types of cylinders for both medium duty & heavy duty applications
- :: Cylinders conform to bis, iso & cetop standards
- :: Bore ranges from 25 to 320 mm
- :: Strokes upto 4000mm
- :: Max. Working pressure 315 kg/sq.cm

Tie rod construction

Welded construction

Compact cylinders

- :: Low friction advance sealing systems with wide working temperature range – 30 deg c to +100 deg c.
- :: Induction hardened and hard chrome plated piston rods for dent and corrosion resistance and long life.
- :: Tubes micro honed to optimum surface finish 0.4 micron ra or better cylinders are available in different construction
  - Tie rod construction
  - Welded construction
  - Compact cylinders
