

Anifold Blocks.

- :: Sudarshan standard and customised blocks integrate the electrohydraulic valves into properly machined manifolds with full assembly and connections.
- :: Blocks tested and preset for integration in the machine and ready to use
- :: Modular conception of valves used-cartridge ,subplate or screw in enables easy assembly of reliable systems
- :: Enhanced aesthetics and ease of maintenance and service in the field

Sudarshan Manifold Blocks Are :

- :: Custom built
- :: Conceived for the optimum systems performance
- :: Designed and machined using cad/cam technology
- :: In cast iron, steel and aluminium alloy

Manifold blocks
