

## Motorized Coder

Royal Motorized Coder is mainly used to print the required message of Batch number, Manufacturing Date, Expiry Date, MRP and Lot Number on Mono Cartons, Plastic Pouches, Stickers and Labels etc.

The Message can be printed on exact location as per your requirement with the help of side guides. The motorizes coder is given with a control panel which has function to adjust the print delay timer and foot switch for manual coding. You can get minimum speed of 35 impressions per minute.
