

CONTAINER RAMP

This equipment is useful for loading and unloading containers using the forklift from ground level directly.

The height of the equipment is hydraulically adjustable by a hand hydraulic pump or AC/DC operated hydraulic power-pack. We suggest AC/DC operation for a high frequent usage.

We can also give a mechanical jack system of height adjustability for low budget accommodation.

SPECIFICATION

- Load Capacity - 10000 Kg & 16000 Kg
- Height Adjustment Range - 1200mm To 1700mm From Ground Level
- Usable Width - 2000mm
- Height Of Handrails On Two Sides - 300mm
- Overall Dimensions - 2400mm (W) X 11700mm (L) (8 Feet X 39 Feet)
